¹ Prices are based on a high-volume guarantee. Current costing is based on a quantity of 1.8 billion tablets. The product cost is higher for customers who buy the MOQ (minimum order quantity) of 18 million tablets.

² The current recommendation for MMS dosing is 180 tablets per pregnancy beginning as early as possible.

³ 6 blister packs x 30 tablets per pack = 180 tablets

⁴ It is more difficult and costly to recycle polyvinyl film and foil compared to HDPE bottles.
